<b>Breve presentazione</b> (mission, identità, attività, ambiti e paesi di intervento..)	<p>The mission of this project is to equip Radio Wega station with new broadcast Fm Transmitter. It was requested in teh previous project proposal together FM antennas. However, due to inadequacy of resources, we bought the FM antennas and left out the Transmitter. Our kind request is to be funded further so that we buy the Transmitter as well.</p> <p>A new braodcast FM transmitter will enable us to run an uninterrupted radio programs because of minimal repairs and mentainance which arises from the old broadcast equipment .</p> <p>After installation of new FM transmitter, Radio Wega will provide clear and powerful radio programs in terms of audio quality and reach. Consequently, it will empower the listeners who depend on the radio daily for spiritual nourishment, and community development programs such as education, health , justice and peace, environmental issues and all other issues affecting communities.</p> <p>To Implement this project, it willl require the following activities:- Buying and Transportation of equipment, Installation and monitoring the signal output for 3-4 days. Mover over, Radio wega management shall further carry out an audience survey after installation of new broadcast equipment so that we continue to incorporate the views of the listeners in our programming.</p> <p>This project will be implemented in the catholic Diocese of Meru, Kenya and also in the Transmission site, Nyambene Forest, Meru-kenya by the Radio manager, Radio Wega technical team and the Bishop of the Catholic Diocese of Meru.</p>

## PROGETTO

<b>Titolo</b>	To buy FM RadioTransmitter
<b>Luogo di intervento</b>	Kenya/ Meru/ Cathedral and also Kenya/ Meru/ Nyambene Forest.
<b>Obiettivo generale</b>	To ensure that the listeners continue to listen to radio Wega programs without interruption which constantly arises due to repairs and servicing of the current old Fm Transmitter.
<b>Obiettivo specifico</b>	To buy new FM transmitter in order to improve the radio signal; and also avoid constant and costly repairs and servicing of the old one.
<b>Tempi Progetto</b>	<p><b>Durata Progetto:</b> 1 year  <b>Data inizio attività:</b> October 2024</p> <p><input type="checkbox"/> <b>In caso di Progetto Pluriennale (max 3 anni). Specificare le fasi</b> (In the case of a multi-year project (max 3 years). Specify the stages)</p> <p><input type="checkbox"/> <b>I anno</b>  <input type="checkbox"/> <b>II anno</b>  <input type="checkbox"/> <b>III anno</b></p>
<b>Beneficiari</b> <input type="checkbox"/> bambini <input type="checkbox"/> giovani <input type="checkbox"/> donne <input type="checkbox"/> famiglie <input type="checkbox"/> comunità	<p><b>(breve descrizione)</b>  This project will continue to benefit 2.5 million people who largely depend on the radio daily for information.  Particularly, it will continue to benefit the catholic faithful by formation and information on matters of christian faith and social teachings of the church which forms the basis of Radio wega programming.  They will be nourished spiritually through prayers, spiritual talks and liturgical celebrations aired through the radio.</p> <p>Radio programs will further continue to benefit the people of God in general, who daily depend on radio for information on community issues affecting them especially in the remotest areas of the of the Diocese of Meru  Moreover, community participation in production of radio programs will grant the listeners an opportunity to participate community development.</p>
<b>Ambito di Intervento(Scope of intervention)</b> <input type="checkbox"/> <b>Pastorale</b> <input type="checkbox"/> <b>Formazione ed Educazione</b> <input type="checkbox"/> scolastica	<p><b>(breve descrizione)</b>  Radio wega programs aims to form and inform the spiritual life and the social life of the listners.  It broadcasts pastoral and spiritual programs of the diocese, and further informs the listeners on what is happening across the church in kenya, and the world at large;and how they can participate in the growth of the church.</p>

<input type="checkbox"/> professionale <input type="checkbox"/> umana, sociale <input type="checkbox"/> <b>Sviluppo Agricolo</b> <input type="checkbox"/> <b>Socio/Sanitario</b> (preventivo, curativo) <input type="checkbox"/> <b>Alimentare</b> <input type="checkbox"/> <b>Abitativo</b> <input type="checkbox"/> <b>Giustizia e Pace</b> <input type="checkbox"/> <b>Salvaguardia creato</b> <input type="checkbox"/> <b>Altro</b>	<p>It further broadcasts programs on hollistic human development and all other issues affecting the listener in the social life, health, education, agriculture, leadership programs, justice and peace, among others, with an intent of informing and empowering the listener in decision making process and participating in social welfare.</p> <p>Radio Wega also creates an avenue for the grassroot voices to express their views and concerns in the community though the radio. This ensures that every aspect of human life is addressed and every person is given an opportunity to participate in social development.</p>
<b>Contesto di intervento</b>	<p><b>Breve descrizione del luogo nel quale si intende realizzare l'attività (aspetti sociali, economici, chiesa locale..)</b></p> <p>This project will be implemented in the catholic diocese of Meru, radio station located at cathedral, Meru and also in Nyambene forest kenya, where the transmission site is located.</p> <p>It also incorporates 2.5 million people who are within the reach. This population depends on the radio for spiritual and social development information; and also use radio to voice out their issues to the local leadership and the Kenyan government.</p> <p>The intervetnion will involve pulling down the old equipments and put new ones. This will take a 3-4 days. As a result, we shall go off-air in the said days for the purpose of installation.</p> <p>After the installation of the new FM Transmitter, we expect the radio signal to be clearer, powerful and reach every area of the frequency coverage. Moreover, we hope that the listenership will increase considerably due to the expected quality signal output.</p>
<b>Partecipazione locale</b>	<p><b>Breve descrizione coinvolgimento popolazione locale, ruolo della Chiesa locale e eventuale collaborazione con altri enti ed associazioni operanti nella zona di intervento.</b></p> <p>After the installation of the new FM transmitter, the local people will be involved in monitoring of the radio sgnal from their residence. They will inform the radio station throught text sms or call directly to the studio.They will be requested to provide the feed back of the quality of the radio signal. The community will further participate inthe audience survery so that they can participate in production of radio programs which address their needs.</p> <p>Morover, the local church , communty based organizations and the local people will be encouraged to use radio in making announcements at a fee which in return will increase revenue for sustainability.</p>

**Sintesi Progetto con breve descrizione attività**

This project focus on equipping Radio wega with new FM transmitter. This is because the current is old, and require constant repair and servicing. Consequenly, the listeners are usually disadvantaged due to poor signal and other times going off-air to do repairs. As a result, the listeners tune in to other stations.

To solve this problem, we humbly request for funding in order to buy a new FM Transmitter to be used toghether with the new FM antennas which you supported us with in the previous funding.

After the installation of the new FM transmitter, we expect to have a clear, powerful and far reaching signal within the stipulated coverage area. We hope the listenership will increase and also we hope that cost of repairs and servicing the equipment will be reduced.

<b>Sostenibilità del progetto</b>	<b>Breve descrizione di come sono assicurate continuità ed autosufficienza al termine del progetto. Punti di forza e debolezze. Opportunità per la collettività.</b>	
	<p>After the installation of the new FM transmitter, we hope we shall get more listeners especially from the areas where the signal does not reach or is not clear.</p> <p>As a result, we expect our revenue through community announcements to increase gradually as we go on. The money we raise though announcement will help us in future to upgrade our equipments when need be.</p> <p>The strength of this project is based on the fact that, more people have been raising complaints about poor signal. This means that once the signal is improved, we expect more listeners to come on board.</p> <p>The weakness in implementing the project is the shortage of experts in installation of radio equipment.</p> <p>Through this project, we have an opportunity to install the best Fm Transmitter and make our radio the best in terms of reach, signal quality and quality programs.</p>
